PROJECTS

Healthcare platform for underserved communities (MediHelp)

Hackathon Project, Second Semester of 2025

- Developed a healthcare app to connect underserved communities with medical services
- Conducted performance tests and optimization checks to ensure efficiency and reliability
- Focused on accessibility, ease of use, and responsive design for low-resource environments

BeU Delivery Advert

Summer of 2025

- Created a visually engaging poster highlighting the app's eco-friendly delivery practices
- Showcased sustainable alternatives used by the service, like reduced packaging
- Communicated the importance of green delivery through clear messaging and eye-catching design.

NOTABLE AWARDS

- **1st Place Winner:** Awarded first place for developing an innovative digital solution during a university hackathon
 - I collaborated with a dedicated team to build the solution, combining technical skills and social impact to create a meaningful project.
-
